Upload the excel file with two sheets, data and recommended levels

Columns to be added to Report

Group1 Name

- ☐ Col1
- ☒ selected
- ☐ Col2

Group2 Name

- ☒ Col1
- ☐ selected
- ☒ Col2
- ☐ Col3

Here, select two groups of columns (apart from the population data) and choose headers for the same. First group will use Norms, second one will use State Average data

Chart1 Column

Number of Sub Centers ▼

Chart2 Column

Number of ANMs working ▼

Back

Export

Assuming two graphs for now, each one on a specific column. First one will include norms, second one will include state average along with the data
